

1v1, 2v1, 3v1

Category: Technical: Attacking and Defending Skills
Difficulty: Moderate

Denny Payne

Animation 1

Set up:

Two teams of 6 separated between two fields with goals, and the same team is split diagonally into 3s, with balls in a pile beside them

How it works, for example:

The green team starts with the ball as the attacking team, red is defending, 1v1 situation, green beats the player and scores.

the green team on the field beside them now plays as a 2v1 against the other red team, if green scores again then it is a 3 v1 back on the original side against red. if red steals the ball and scores, now they are the attacking team and green is defending.
